### **An English-Chinese Glossary of the Intellectual Property Law Terminology of Mainland China, Taiwan and Hong Kong**

The project aims to compile an English-Chinese glossary of the modern legal terms of intellectual property (IP) law in mainland China, Taiwan and Hong Kong, in order to promote the legal protection of IP and mutual understanding of such law between the regions in Greater China. The glossary will primarily cover legal terms in the areas of IP law, contract law and commercial law. Its key feature will be the capture of terms imported after China's and Taiwan's accession to WTO in 2001, which led to more English-Chinese translation being conducted for international agreements such as the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS).
