

CEN/ISSS Workshop on eCataloguing
Comment on WS/eCAT

Gerd Ochel , ETSI

Information

Note from CEN/ISSS Secretariat

The following comment was received by the CEN/ISSS Secretariat during the public consultation phase related to WS/eCAT which was launched at the end of September 2002.

14 October 2002

Subject: Proposed CEN/ISSS Workshop eCAT

Dear CEN Colleagues,

It seems to me that the title (*Multilingual Catalogues for Products and Services in eCommerce and eBusiness (CEN/ISSS/WS/eCAT)*) is misleading.

I am sure that the WS will not produce any catalogue for products and services but a "cataloguing technique for multilingual catalogues for products and services ".

Is my understanding correct?

Yours sincerely,

Gerd Ochel
